

Figure 1. Willem's 5/1980 Theisen Polygon map, w/ hand-drawn transect by Bryce.

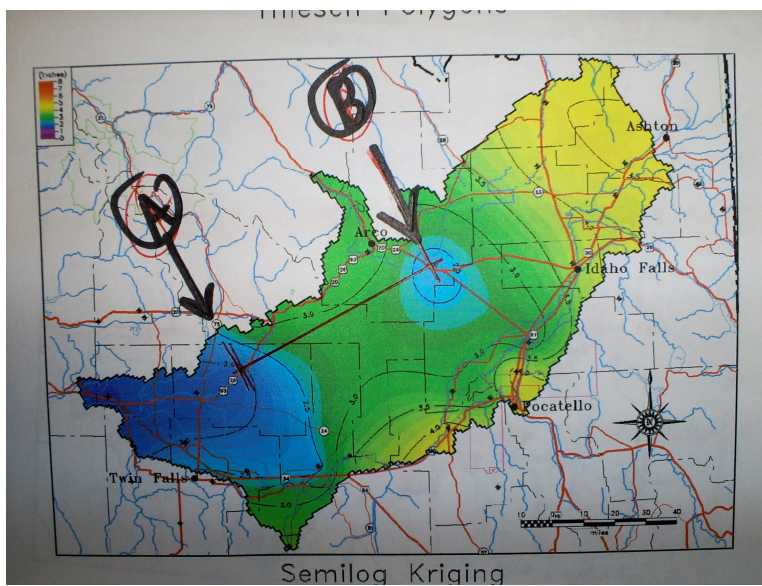

Figure 2. Willem's 5/1980 Semilog Kriging map with transect hand-drawn by Bryce

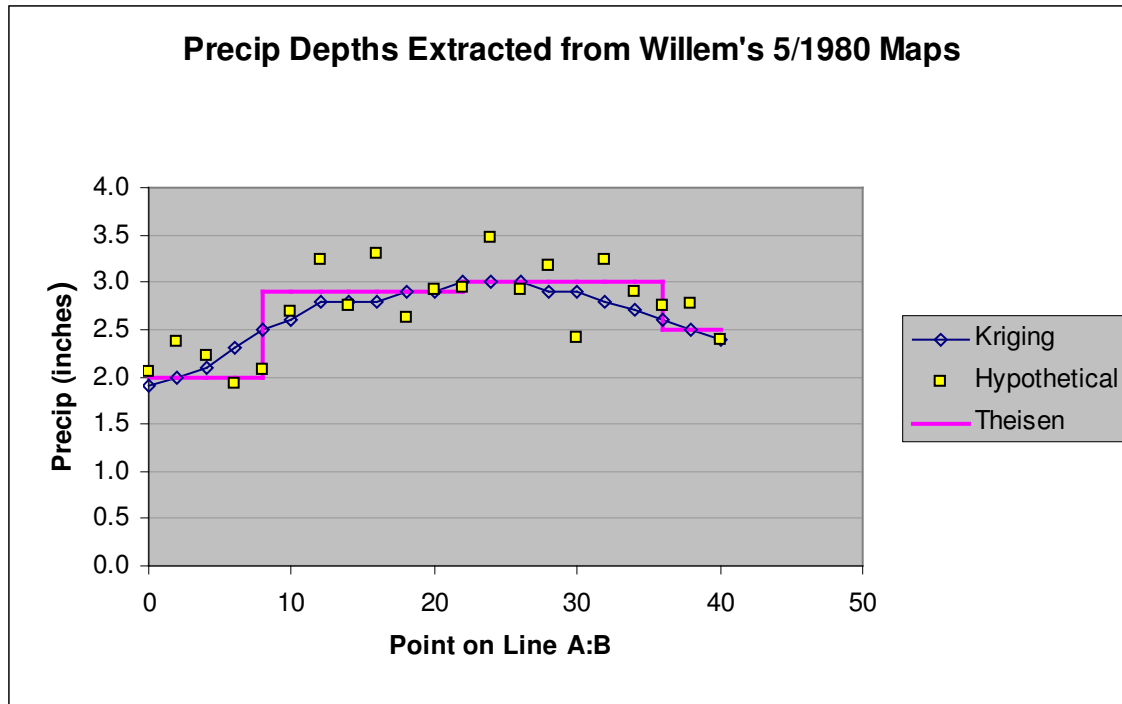

Figure 3. Bryce's best estimate of precipitation depths on cross-section A:B from Willem's 5/1980 maps, with hypothetical "actual" distribution obtained by adding normally-distributed random number, mean zero, std. deviation 1.0, to Kriging curve.

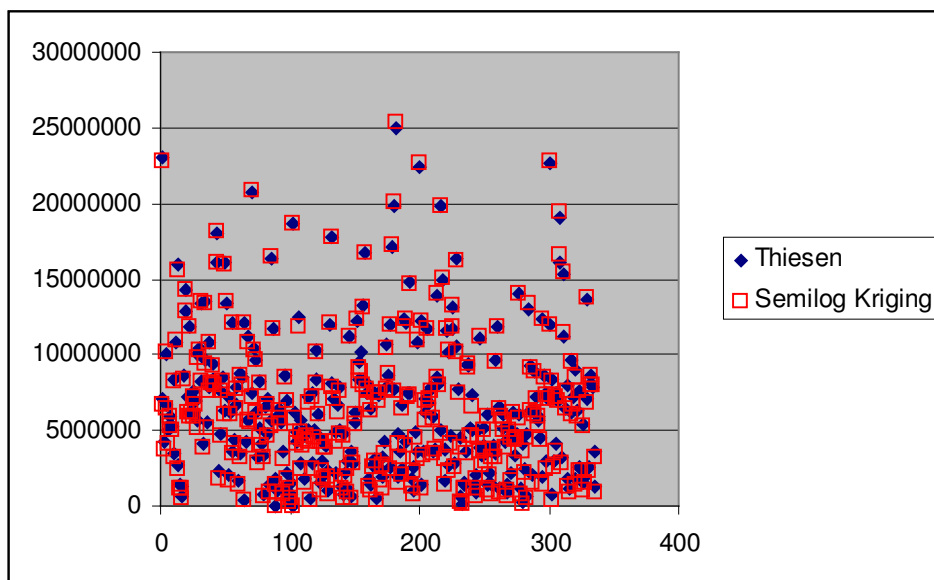

Figure 4. Time-series plot of Theisen vs. Semilog Kriging monthly totals, from Willem's e-mail.

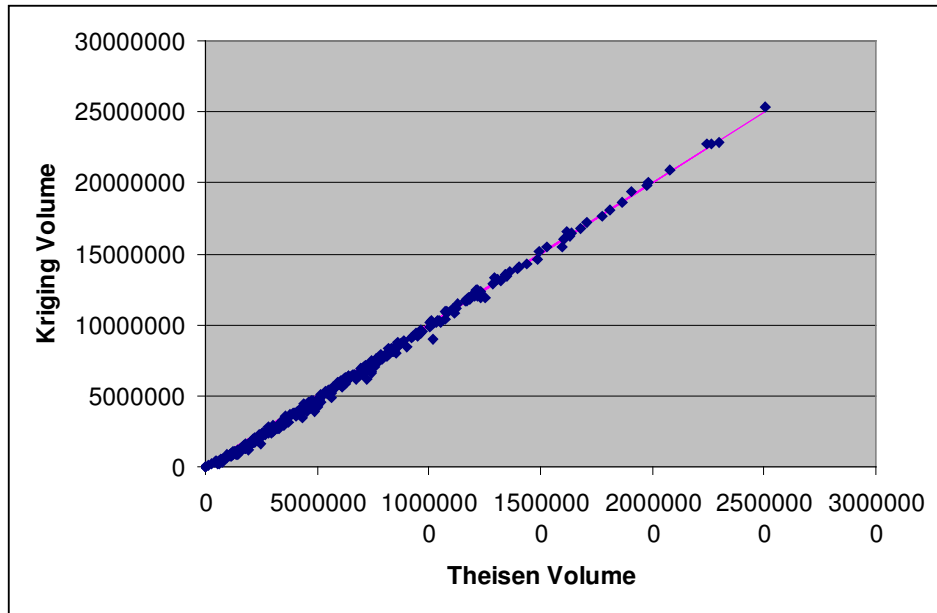

Figure 5. Cross-plot of Theisen-polygon volume vs. semilog Kriging volume, from Willem's e-mails.
